CAREER SUMMARY

Full Stack Developer with 3+ years of experience building responsive and scalable web applications using **React.js, Node.js, Express.js, and MySQL**. Skilled in front-end development, REST API integration, and backend services. Strong problem-solving, debugging, and performance optimization skills. Experienced in Agile environments and passionate about delivering high-quality software solutions.

WORK EXPERIENCE

3+ Years

Jr. Full Stack Developer

Apr 2022 – Present

Ceipal Software Pvt.Ltd | Madhapur, Hyderabad

- **Job ID & Client ID-Based Tracking:** React allows precise tracking of expenses and timesheets linked to both Job ID and Client ID, ensuring accurate client billing and project costing.
- **Client-Specific Invoice Generation:** Dynamically generate invoices for each Client ID, itemizing expenses and timesheet hours for the associated jobs, making invoicing client-specific and streamlined.
- **Accounts Payable Integration:** Automatically link invoices to accounts payable, ensuring timely and accurate payments, while keeping records tied to both Client ID and Job ID.
- **Real-Time Data Sync:** React ensures real-time synchronization of timesheets, expenses, and invoice updates, providing immediate insights for client billing and accounts payable processes.
- **Validation for Accurate Billing:** Use React's form validation to ensure that Job ID, Client ID, timesheet, and expense data are accurate before generating invoices, reducing errors in accounts payable.
- Debugged and resolved front-end issues.
- Excellent Problem Solving and Debugging skills

PROJECTS

Employee Management System – Ceipal Workforce (Jul 2022 – Present)

- Developed features for employee onboarding, timesheet tracking, and payroll integration.
- Built Node.js/Express.js REST APIs for employee data, timesheets, and expense reporting.
- Integrated with third-party accounting and finance tools, enabling real-time synchronization.
- Tech Stack: React.js, Redux, Node.js, Express.js, Bootstrap, MySQL, REST APIs.
